

LOADRITE SPRINT

It's so cost effective, it'll pay for itself...

Install the LOADRITE® Sprint™ on your forklift or small wheel loader and see how you'll save time and money. This cost-effective onboard weighing system combines basic functions required to load once and load right, along with the exceptional service and support that LOADRITE® provides. With only six keys the LOADRITE® Sprint™ is operator friendly and simple to use.

Install a LOADRITE® Sprint™ and reduce costs by:

- Loading accurately the first time
- Eliminating costly overload fines
- Minimizing lost product from overloading
- Reducing wear and tear on machines caused by overloading stresses

The LOADRITE® Sprint™ is ideal for small wheel loaders working on construction sites and forklifts operating in warehouses.

The Ultimate in Onboard Weighing Systems

LOADRITE

The LOADRITE® Sprint™ features include:

- Large LCD display: with back lighting for night and low light operation
- Time/date display
- Only six keys, so it's operator friendly and easy-to-use
- Basic weighing functionality
- Multiple languages: seven language options (English, Spanish, German, Slovenian, Dutch, Portuguese, Hungarian and French)
- Long total function: shows total product moved over a shift, week or month
- Auto add function: the Sprint™ automatically adds the lifted weight to the weighing total
- Total function: shows the total weight of a product loaded onto a truck
- Load information such as summary reports can be produced with the LOADRITE® Printer or transferred to the LOADRITE® Material Management System (both sold separately)

LOADRITE® Sprint™ Console: The Nuts and Bolts

Note: Specifications may change due to continuous product improvement.

Power Requirements	<p>Supply Voltage 12 to 32 VDC (i.e. designed to operate on 12 or 24 volt systems). Automotive power supply transient suppression exceeds SAE specifications</p> <p>Supply Current 160 mA typical, 350 mA max, 3A max with printer</p> <p>Calibration and Data Back Up Data is stored in a permanent memory and is not affected when the main power is turned off</p>
Display/Keyboard	<p>Display LCD 2 lines of 8 characters, used to display operator messages, and prompts to enter product data etc The large, highly visible, backlit 5 digit numeric display shows lifted weights and totals</p> <p>Keyboard Waterproof tactile membrane with backlighting</p>
Physical	<p>Dimensions W145 x L240 x D110 mm (5.7 x 9.4 x 4.3in)</p> <p>Weight 1.5 kg (3.2lb)</p>
Environmental	<p>Operating Temperature -10°C to 50°C (14°F to 122°F)</p> <p>Storage Temperature -30°C to 80°C (-22°F to 176°F)</p> <p>Protection Water and dust protected to IP54</p> <p>Vibration Qualified to MIL-STD-810D</p>

Accessories: LOADRITE® Printer, LOADRITE® Material Management System, Remote add button
