Pre-cleaners

TOPFILTRATION EUROPE

TA SERIES METAL PRE-CLEANERS

- Heavy duty, non-rusting aluminum and stainless steel construction, yet lightweight, requiring no additional clamps or supports
- Curved and angled vanes to direct the air flow to maximize cleaning efficiency
- Stamped one-piece stainless steel impeller is precisely balanced, eliminating vibration, noise and premature bearing failure
- Rugged one piece aluminum hood and body
- Stainless steel impeller and clamp

INTEGRATED VLR FILTER PRECLEANER

VLR FILTER

The Integrated VLR offers a four stage filtration system which is more efficient and less restrictive than traditional tangent entry canister alone. The VLR incorporates Top Filtration's well know dynamic precleaner with a static precleaner into a dual element filter canister.

Partnumber	Type	Connector inch	flow m ³ /min from-to	Element safetyfilter	Element filter	A wide (mm)	B length (mm)
53-10305	VLR 1,75"	1,75"	0,5 - 2,4	53-00020	53-00015	137	338

84-60009	OBL-9	93	266	451	397	8
84-60010	OBL-10	93	266	529	475	10
84-60011	OBL-11	114	322	558	503	12

ACCESSORIES

Top Filtration has a large product line adapters and accessories for various applications.

- Rubber insert extrusion
- Reducer adapter
- Straight stack extension
- Expansion adapter
- Universal adapter
- Prescreen
